---

I'm glad you are back and safe. I hope the damage to your properties are not too bad.

I will review with our lawyers and come back to you asap.

Lloyd: can we prepare a mutual NDA?

Philippe: can you quickly review?

Mario

Hi Mario,

We are almost back to normal in our office. I cannot disclose "Claim Charts" and such details unless we are legally protected for that to be able to compare it with Music Choice technology publicly disclosed.

Hi Mario,

For now, you can forward to your layers the presentation attached and this email:

- The first piece of IP is covered by [https://patentscope.wipo.int/search/docservicepdf\\_pct/id00000033995737/PAMPH/WO2016106360.pdf](https://patentscope.wipo.int/search/docservicepdf_pct/id00000033995737/PAMPH/WO2016106360.pdf) details on WIPO <https://patentscope.wipo.int/search/en/detail.jsf?docId=WO2016106360> This is a workaround for "Music Choice" patents based on their Cable TV Broadcasting System also called "Interactive Visual Component for Audio" described by US. Patent No. [US7275256](#), [US7926085](#), [US9357245](#), and US8769602 as well as their On-Demand patents 9,414,121, [US7320025](#), [US8166133](#), and [US9351045](#)
- The second piece covers Music Choice App (iOS/Android when interacts with Chromecast, Apple TV, Roku, or other connected devices and STBs. US **7,339,493**

(<http://corporate.musicchoice.com/mobile/music-choice-apps/>), Additionally, other claim charts can be drawn with other STBs can be provided upon request.

- o Amazon Fire <https://www.amazon.com/Music-Choice/product-reviews/B00EW37XOC>
- o Android <https://play.google.com/store/apps/details?id=com.music.choice&hl=en>
- o Music Choice Ad  
[http://corporate.musicchoice.com/files/7114/5831/0699/Music\\_Choice\\_TVE.pdf](http://corporate.musicchoice.com/files/7114/5831/0699/Music_Choice_TVE.pdf)
- o IOS <https://itunes.apple.com/us/app/music-choice/id573887614?mt=8>

In summary, the first piece of intellectual property is covered under Cloud to Cable TV <https://eglacomm.net/2017/07/our-cloud-to-cable-patent-technology/> and represents a more advanced way to broadcast media to Cable TV systems like Stingray or Music Choice using the cloud and modern techniques. The 2<sup>nd</sup> piece of IP covers how the Music Choice App currently works specially all interactions with STBs such as Chromecast, Apple TV, Amazon Fire, or other devices where your mobile phone controls the TV.

I control both assets and pricing/claim chart discussions can be done under NDA.

Best Regards

Edwin A. Hernandez

Hi Geoffey,

As I said over the phone, I have an alternative way for Stingray to get out of the Music Choice lawsuit. I'd be happy to discuss,

Best Regards,
